 in a fresh new way

**A NEW CONCEPT**

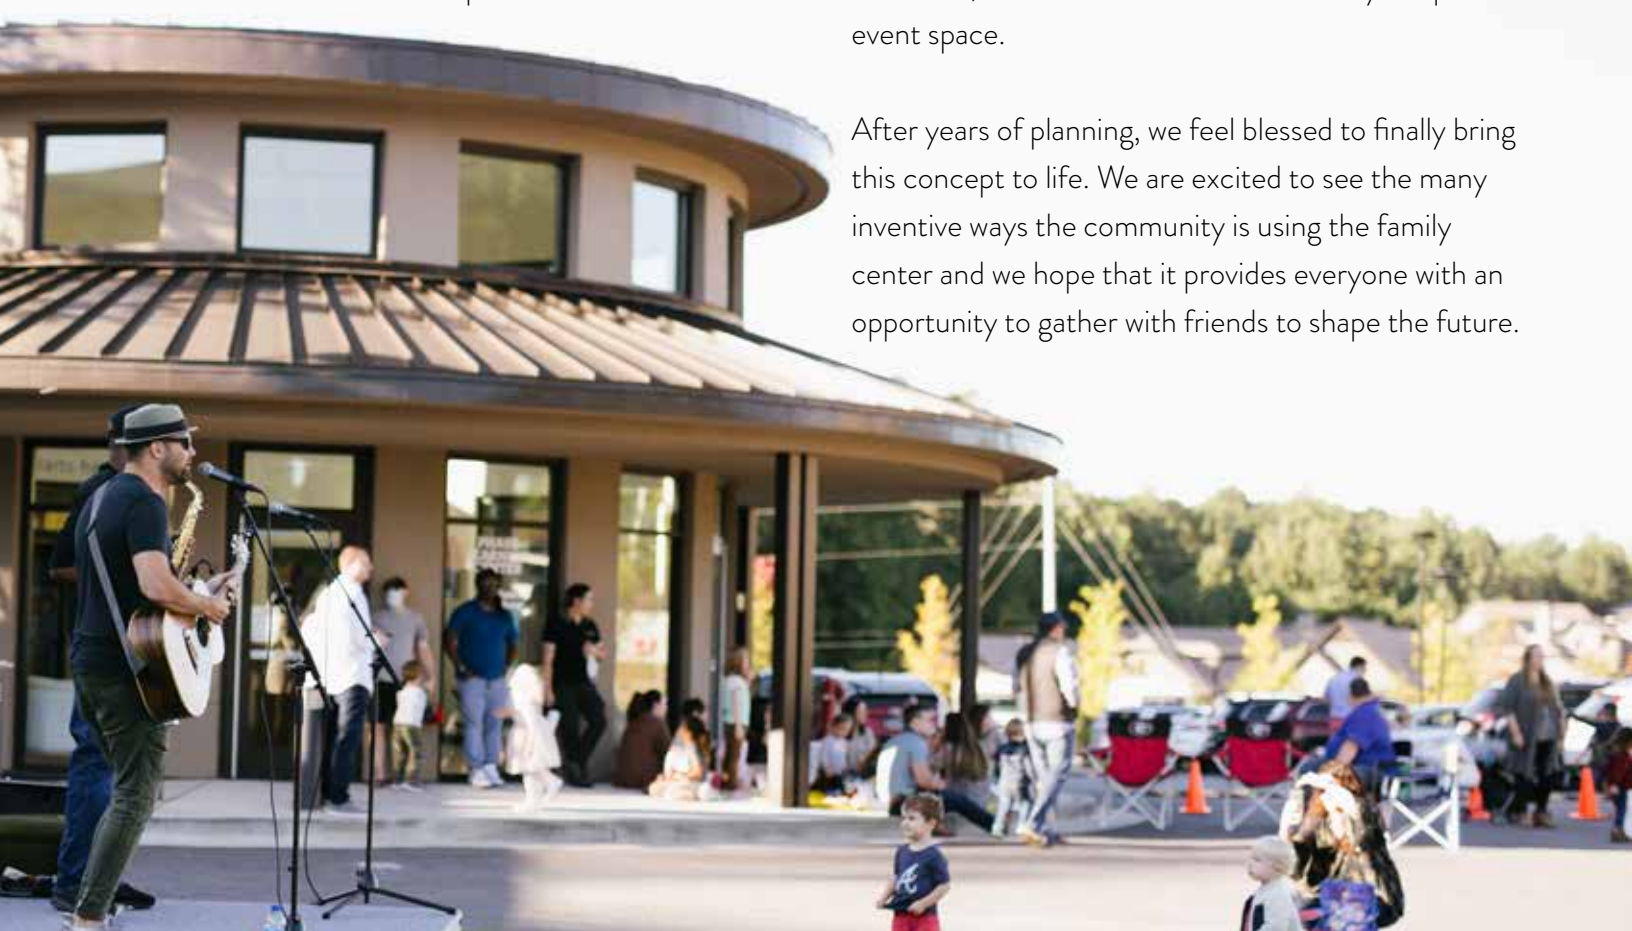

Five years ago, we began dreaming about investing in families. We were concerned that families were being underserved by the existing offerings in the marketplace. We sought to create a cornerstone in the community where families could learn, work, gather and celebrate in a fresh and new way.

The foundation for this new concept would be a loving learning center, where the environment and culture would set a new standard in childcare. Each child would be supported in their growth mentally, physically, relationally and emotionally. Each teacher would be supported in their desire to provide the best care to their students. And each family would be supported in their desire to connect with their childcare providers and with each other on a deeper level.

Since work is an essential part of family life, we applied the same focus to providing the community with a calm and inspiring place to work. Today, nearly one-third of us are freelance and independent professionals, creating a need for flexible workspace. Together with the learning center, we sought to create the largest coworking facility in the nation with on-site licensed childcare. A common work area, a coffee shop, private offices and meeting rooms would combine to create the perfect environment to get work done.

Finally, our vision for a family center would not be complete without a place for the community to gather. The centerpiece would be a large, state-of-the-art theater for family functions, worship services and corporate events. Together with the rest of the center's amenities, Phase would stand out as a truly unique event space.

After years of planning, we feel blessed to finally bring this concept to life. We are excited to see the many inventive ways the community is using the family center and we hope that it provides everyone with an opportunity to gather with friends to shape the future.

## A MESSAGE FROM OUR DIRECTOR

Welcome! The Phase Family Learning Center provides a safe and warm environment where your child will learn to thrive. Featuring preschool, after school care, school break camps, and summer camps, this is daycare reimaged. Whether kids are learning to cook in our kids kitchen, challenging themselves in our STEM room or drawing up something special in the art studio, they will have a blast while gaining the critical skills they need to succeed. Our mission is to partner with families to create a better future through quality education, powerful experiences, incredible environments, and passionate staff.

## EDUCATIONAL PROGRAMS

### INFANTS AND TODDLERS

Infant and young toddler schedules are less structured than those for older children. Daily structure for the infant and young toddler programs revolve around important care routines. In an infant room especially, there are several schedules being followed throughout the day depending on individual needs.

### PRESCHOOL CHILDREN

Daily routine for preschool age children (2-year-olds through Pre-K) call for a more predictable yet flexible schedule. With growing independence and mastery of new skills, children can make choices and follow their own interests while feeling comfortable within the secure framework of a schedule.

### NO SCHOOL? NO PROBLEM!

Sometimes schools are closed but work isn't. Phase offers single-day School Break Camps for students from Kindergarten to 5th grade on many days when Fulton County Schools are closed. Whether your child is a previous Phase Distance Learning student or brand new to Phase, these camps are a great way to learn and have fun when schools are closed.

### SUMMER CAMP

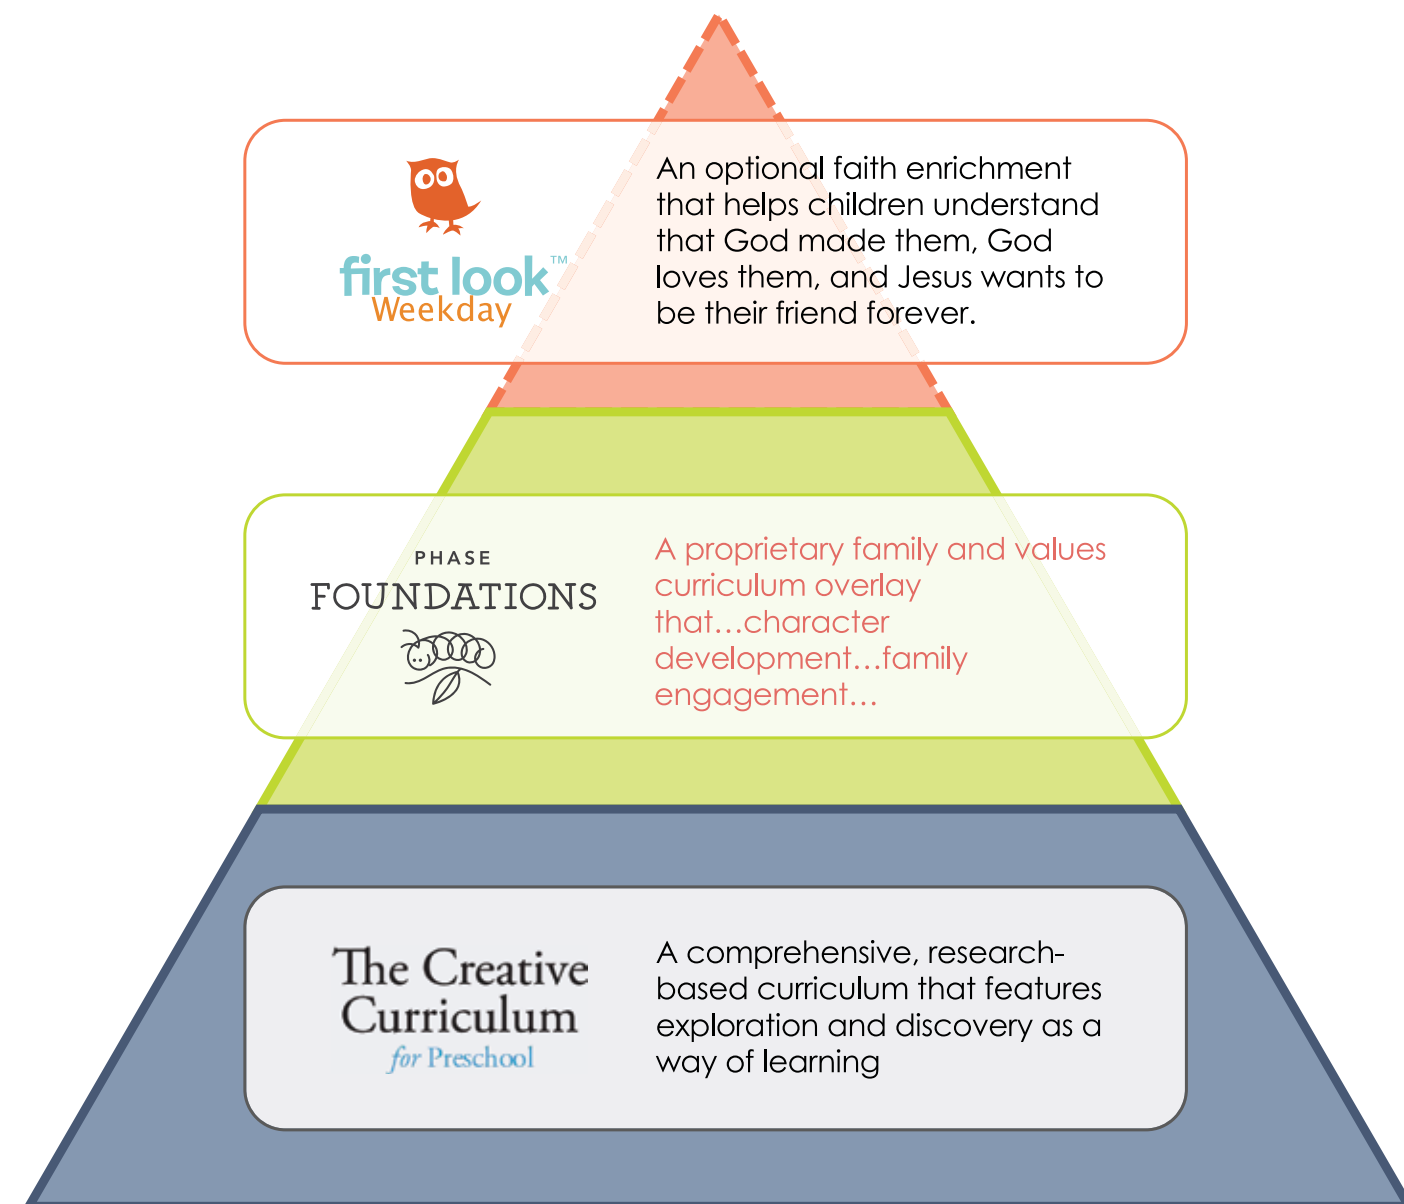

Camps at Phase are designed to deconstruct the world of play and open the doors to unlimited learning experiences. Our spaces were crafted intentionally to cultivate both the artist and scientist in every child in electrifying, fun-inspired learning environments. Each theme is based around our mantra: "Play. Learn. Grow.", where kids learn relational values to gather with friends and the knowledge to shape the future. Phase Summer Campers will enjoy playing unique sports, exploring nature, participating in creative arts and working as a team.

## OUR CURRICULUM

At Phase Family Learning Center our teachers implement the use of Creative Curriculum blended with our Phase Foundations Curriculum for added enrichment experiences, for children ages 6 weeks to 5 years. This combination prepares your child with the skills and knowledge they need for the future. By implementing both Creative Curriculum and Phase Foundations, we are able to provide a culturally, and linguistically age-appropriate program that is aligned with state standards and milestones.

This revolutionary device kills 99.9% of common viruses on non-porous surfaces and 99.9% of common bacteria on non-porous, porous and semi-porous surfaces. In addition, our classrooms, and enrichment rooms are sanitized after each use.

### DROP OFF AND PICKUP

Continuing to follow guidance from Bright from the Start and the Department of Health, our building is equip to safely welcome parents. We have implemented contactless check in-out using QR scans. If any of our students get sick or run a temperature during the day, they are able to rest in our clinic until a parent or guardian is able to pick them up.

### HEALTH AND SAFETY ACTIVITIES

We are working hard to maintain a safe learning environment for all students and staff by continuously educating students and staff about the importance of frequent hand washing; proper techniques for covering a cough or sneeze; not touching one's eyes, nose, and mouth; staying home when ill, and other measures to prevent the spread of all communicable diseases.

- 2 We lead every child to lead.
- 3 We support every child's holistic needs with a dedicated team.
- 4 We develop future skills through creative play and practice.
- 5 We celebrate the power of community and family.
- 6 We design environments that inspire.

## EVERY CHILD IS A NATURAL ARTIST AND SCIENTIST

We emphasize the arts (literary, visual, music, drama) AND the sciences (nature, technology, engineering, math). We plan times to move and work together more loudly while creating others to slow down and think more quietly.

## EVERY PARENT IS THE CHILD'S FIRST AND BEST TEACHER

We communicate daily, weekly, monthly, and annually, in many different forms (digital, paper, formal, informal) to partner better. We offer monthly family nights to come and explore a specific domain (literary, science, technology, art) or the entire learning center more in-depth.

## EVERY TEACHER IS A CHAMPION FOR CHILDREN AND FAMILIES

We enable teachers through effective technology to document learning and observations to use in conferences with parents and directors. We empower them through on-site AND on-line training. We maintain a culture of learning and rewards in order to continue developing their knowledge and skills to better support children and their families.

## OUR SPACE IS THE THIRD TEACHER

We provide visual environment guides and supply lists with recommended materials for classroom centers, enrichment rooms, and outdoor learning areas. We open our doors regularly to the community for family fun, shared learning, and even birthday parties and special events.

## RAVE REVIEWS FROM PARENTS

**“MY NIECES GO HERE AND THEY LOVE IT!!! THE CARE THAT THIS STAFF HAS FOR THE KIDS IS PHENOMENAL! CLEAN, SAFE AND FRIENDLY ENVIRONMENT. I RECOMMEND!”**

“We love Phase family center! We’ve had our daughter there for almost 2 years and getting ready to start our son there! The kids aren’t stuck in the same room all day, they have amazing spaces including culinary, art, stem, a large gym and different play spaces. We love the staff and how hard they have all worked through this pandemic! Highly recommended”!

“The Phase Family Learning Center is a unique, full-service preschool, after school and daycare center that is specifically designed around the needs of Alpharetta families. We blend high-quality daycare with the desire of parents to be connected in relationship with other families in their local community.”

“My family and I love Phase Family Learning Center! My kids have been attending the center almost a year and a half. In this time, I can confidently say the teachers work VERY hard and are super loving to my children. The admin team is very professional and is truly a dream team. They are invested in the well-being and growth of your child. If you are looking for quality care with a safe and fun environment, then this is the place for you. PFLC is easily the best child care facility Alpharetta.

Additionally, I really adore a lot of the teachers but I want to give a huge shoutout to Ms. Shae, Ms. Patsy, and Ms. Jackie, Ms. Brandi, Ms. Mara, and Ms. Mojgan! They have been such thoughtful, energetic, patient and selfless people. This can be such an overwhelming but beautiful experience for parents just as much as children, so it’s comforting to know that your children are in great care!”

Great facility & teachers!!

## RAVE REVIEWS FROM EVENT PLANNERS & ATTENDEES

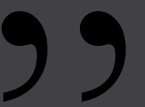

“We attended a gala at this space and it was an awesome facility! The staff were friendly, the space was very neat, and the sound and visual aspects were top notch!”

“THIS VENUE IS ABSOLUTELY STUNNING. I’VE ATTENDED A FUNDRAISING GALA AND A CONFERENCE TO DATE AND I’M TRULY LOOKING FORWARD TO ANYTHING IN THE FUTURE I MIGHT ATTEND THERE. BEAUTIFUL FACILITIES, BATHROOMS, EVERYTHING.”

“I can’t say enough good things about the Staff or the venue! We held a small Prom in the Legacy Theater for our hybrid school and it went wonderfully!”

“We produced CodeLaunch ATL at this venue in August 2021. It was the first event we’ve ever tried to produce outside DFW (our home since 2013). This is a business & technology oriented event. Francesca and her staff were awesome, the venue was perfect for us. The local AV team and infrastructure really came through and made it a great event. We are now very confident that we can travel throughout North America and this venue and support team was the perfect place to start.”
